1. Claims 1-32 are allowed.
2. The following is an examiner's statement of reasons for allowance:

For claims 1, 19, 21, 25, 27, and 29, the prior art of record, does not suggest, in combination with the claim as a whole, separating image and sound data in a frame or inputting image data and sound data corresponding to a frame, encoding the separated image data in sequence from a lower to a higher frequency component, encoding the separated sound data in sequence from a lower to a higher frequency component, generating header information using the image encoded data and the sound encoded data, and generating frame encoded data using the header, the image encoded data, and the sound encoded data.

For claims 8, 20, 22, 26, 28, and 30, the prior art of record, does not suggest, in combination with the claim as a whole, separating the image and sound data in a frame or inputting image data and sound data corresponding to a frame, hierarchizing the image data into a types of image data and encoding the types of image data, thus generating image encoded data corresponding to levels, hierarchizing the sound data into a types of sound data and encoding the types of sound data, thus generating sound encoded data corresponding to levels, and generating frame encoded data using the image encoded data and the sound encoded data, where frame encoded data is generated by forming groups of different levels by grouping the image encoded data and sound encoded data belonging to the same level determined on the basis of a predetermined reference, and arranging the groups in descending order of significance level.
